115 SERIES CCT SELECTABLE AND WATTAGE LED UFO HIGH BAYS

Construction:

- **Fin Design:** Enhanced with advective holes and grooves within each fin for optimized thermal performance.
- **Heat Dissipation:** ADC12 Aluminum Engineered for superior heat dissipation, ensuring prolonged LED lifespan and consistent performance.
- **Designed to perform reliably** within a wider temperature range from -40°F to 131°F (-40°C to 55°C).
- **Accessories:** Customizable range of optional accessories like Hook/Chain, ½" G size Pole Pendant, and Surface Mounting etc.

Optics Features:

- **Light Distribution:** Professional light distribution technique employed to achieve optimal coverage.
- **Reflectivity:** Incorporates high light reflectivity reflectors for enhanced luminous efficiency.
- **Beam Angle:** 110° beam angle for comprehensive area coverage.
- **Lens Performance:** The lens boasts an impressive pass rate exceeding 90%.
- **Color Temperature:** Choose from CCT options of 3500K, 4000K, and 5000K for versatile lighting environments.

Electrical Specification and Efficiency:

- **Input Voltage Range:** AC 120-277 VAC and 277-480 VAC
- **Efficacy:** 140LM/Wattage
- **Wattage and CCT Options:** You can choose from fixtures with either a set CCT and fixed wattage, or opt for fixtures that offer both selectable CCT and wattage settings.
- **Dimming Functionality and Sensor Options:** Enjoy personalized illumination control with 0-10V dimming capability. Choose between MCROWAVE or PIR sensor, which operate effectively both with or without 0-10V dimming feature.
- **Components:** Equipped with high-quality Songsen driver and LEDs for reliable and efficient operation.

Maintenance Guidelines:

- Optimal Performance: Sustain optimal lighting performance by periodically cleaning the lens/diffuser of the LED UFO High Bay light.
- Heat Dissipation: To maintain effective heat dissipation and optimal performance, ensure the cleanliness of the LED UFO High Bay shell.
- Cleaning Recommendations: Use a dry or wet cloth for cleaning; avoid exposure to corrosive substances.

Electrical Hazards:

- High-Voltage Precaution: Due to the fixture’s high voltage, avoid disassembly to mitigate the risk of severe electric shock.

Compliance:

- DLC 5.1 Premium Certification: Achieves superior standards in terms of luminous efficacy and reduced UGR (Unified Glare Rating)
- UL Listed

Installation

Rings Type:

Hook Type:

Wiring Connection:

- When connecting the AC wire, please don't forget to turn off first the power.
- Black wire to L, White wire to N, and Green wire to E.
- Dimmer connection (with dimmable driver)
 - Compatible with 0-10V dimming,
 - Connect wires as below:
 - Purple wire is D+
 - Pink wire is D-
 - Black/White wire is 12V

- "X" can be "H" or "HY" (Y=number) to represent lighting effect (*no effect to power);
- "XXK" can be "35K", "40K", "50K", "57K", "65K";
- "(XX)" can be (MS), (PIR), (BT) to indicate Microwave Sensor, PIR Motion sensor, Motion Sensor with Bluetooth or blank to indicate without Motion Sensor.

Safety Precautions

- Professional Installation: Installation, maintenance, and electrical tasks must be exclusively undertaken by qualified electricians.
- Wiring Safety: Prior to any wiring activities, ensure complete disconnection of power.
- Grounding Importance: Proper grounding of the LED UFO High Bay light is imperative for safe and reliable operation.
